

ARTON RAMADANI

Web Developer

EMAIL: artonramadani25@gmail.com

ADDRESS: STR. REXHEP KRASNIQI 376-1, PRISHTINA

PHONE: +38345944338

DATE OF BIRTH: 09-25-1999

NATIONALITY: ALBANIAN

OBJECTIVE

Proactive, oriented to fulfill the tasks that are my responsibility and most importantly to finish them in time. Received excellent feedback from professors and employees during my studies on my ability to work with team members and on my ability to learn whilst at once developing team projects.

EXPERIENCE

Prishtine

May 2021 – Courent

Senior Web Developer

Solutyons

Courently working at Solutyons as a Senior Web Developer where I am responsible for building and testing the functionality of different web platforms built by me and different developers. My responsibility's are to develop platforms from the start or contribute on other projects that are being developed by our team members, update older platforms, test the security of different functions on platforms developed by our team, and from time to time test team members knowledge and ability to not fall as pray of hacker's.

Prishtine

January 2021 – April 2021

Front/Back-end Developer

Kapaku Web

During the time that I worked at KapakuWeb I successfully programed web pages using different technologies like html5, CSS, javascript, php, MySQL, Wordpress etc. During this time I have worked here, I learned the ethics of work and the and the know the responsibility's that every worker need's to have in certain projects assigned to them.

Shtime

January 2020 – February 2020

FREELANCER

NNP "Agroni"

Successfully programmed an application that will help the owner better manage his income and outcomes, his workers, and the working tools that the owner has.

Shtime

2013-2017

4 YEARS SCHOOLS' CABINET MAINTENANCE

Gymnasium "Naim Frasheri" - Shtime 3 years

Elementary school "Hasan Prishtina" – Godanc 1 year

During my studies I have successfully repaired more than 50 computers, and maintained them by updating and in some cases fixing hardware and software. While having this responsibility which I have been awarded with certificates, I

also held extra classes with students who felt that they needed extra hours of study in the field of technology.

EDUCATION AND TRAINING

Computer Science and Engineering

Bachelor of Computer Science and Engineering, University for Business and Technology, Prishtina November 2021

Successfully graduated from UBT majoring CSE where I learned different technology's to develop different applications, whether they are web based (html, css, JavaScript,php) or local apps(Java, SQL). Learned to design projects using different architectures and methodology's such as MVC, microservices, Monolith Architectures etc. (Relative gained knowledge: virtual machines, networking, phases of project development, project presentation etc.)
